HRH Princess Beatrix Visits Lago

LIKE HER Majesty Queen Juliana before her, HRH Princess Beatrix travelled the main refinery road accompanied by the Lago president, Princess Beatrix's visit was Feb. 11 with O. Mingus; Queen Juliana toured the refinery Oct. 22, 1955 with J. J. Horigan. A picture story of Princess Beatrix's Lago and Aruba visit appears on pages 3-6.

Un reportaje fotografico di bishita di Princesa Beatrix na Lago y Aruba ta aparece ariba paginan 3-6.

Lago Wins First Place in Safety Council Contest

For the second time in four years, Lago Oil & Transport Co., Ltd. led all refineries of its size in safety, and won the National Safety Council Contest.

Word of the victory was announced in a cable last week from the NSC. Finishing behind Lago's frequency rate of 0.61, best in the company's history, was Standard Oil Company of Ohio in second place, and General Petroleum Corporation in third. Complete details of the performance of these two companies are lacking at this time.

For 1956 Lago finished second in the contest, with a frequency rate of 1.01 injuries per million man-hours worked. Winner that year was the Lion Oil Company, El Dorado, Arkansas, with a rate of 0.65.

Three Events

Winning the 1957 contest was the third memorable safety event at Lago during the year. It was the year when employees set the lowest frequency rate ever established here, bettering 1954's previous best figure of 0.68. It was also the year in which employees reeled off 6,520,829 consecutive accident-free manhours, also a new record.

This period extended from Dec. 8, 1956 to June 5, 1957, 180 days. The previous best period was 4,708,531 manhours.

It marked the second time since Lago has entered the contest as a single unit that employees' safety efforts won top ranking. The other year was in 1954, when the rate was 0.68. The company's lowest ranking in recent years was third place, in 1951. That year the rate was 1.45.

In 1952, the frequency rate of 1.20 won second place; in 1953, 1.01 also took second in the contest. The next year Lago finished first, and in 1955 and 1956, Lago was in second again,

with frequency rates of 0.96 and 1.01, respectively.

For last year's long accident-free period the company received a National Safety Council Award of Honor, the eighth the company has won.

Socony Mobil Plans New Refinery In Venezuela

A \$28,000,000 vote of confidence in Venezuela's future has been cast by the Socony Mobil Oil Company, which announced recently that it would spend that sum for a new from-the-ground-up refinery at El Palito, west of Puerto Cabello.

Crude for the new plant will come from the Silvestre Field in the vicinity of Barinas and will be shipped via the new pipeline completed by Socony in November. It was noted, however, that other crude available in the area will also be processed by the new refinery.

Construction will begin soon, according to the Socony announcement, and will be completed late next year. Initial capacity will be 40,000 barrels a day, with provisions for expansion.

Most of this output, notably lighter products, will be marketed in Venezuela, and the remainder will go into world markets. After the plant goes on stream in 1959, 250 to 300 employees will operate it.

Lago To Buy Employee Pictures for '59 Calendar

Each Accepted Color Transparency Will Bring Photographer Fls. 100

Color transparencies of any size, depicting any Aruba subject, taken by Lago employees or annuitants, are eligible for cash awards offered by Lago through the Public Relations Department. Pictures selected will be used to illustrate the 1959 Lago calendar. Fls. 100 will be paid for each shot chosen by the PR staff.

The rules laid down for the competition are simple enough:

1) Only original full-color transparencies will be considered. Do not submit color negatives, hand-colored prints or any printed or published color photographs.

2) Submitted transparencies must be of Aruba subjects: people, scenes, places or things.

3) Only work submitted by bona fide employees or annuitants will be considered.

4) Transparencies bought through the competition become the property of Lago Oil & Transport Co., Ltd. While every effort will be made to return to their owners the transparencies used, this cannot be guaranteed.

5) Pictures used in the calendar which depict recognizable persons must have signed releases submitted to the department, stating that the person or persons have no objection to having their pictures used in the calendar.

6) Employees of the Public Relations Department are not eligible to enter the competition. The department however reserves the right to use staff-taken pictures in the calendar if there are not 12 entries of sufficiently high caliber submitted.

Transparencies submitted will get the best of care while being examined. Before mailing or delivering pic-

tures to the Public Relations Department, photographers should be sure their names and addresses are clearly indicated.

No Size Limit

There are no limits to the number an individual employee can submit, or, for that matter, to the number one man can sell. And while there are also no restrictions on size, it should be remembered that the bigger the transparency, the better is the picture made from it. Anything from 35 mm to 8 x 10 inches is acceptable. Pictures will be judged on the basis of focus, color, composition and subject. Size will not enter significantly into the judges' appraisals.

Lago's 1955 calendar was made up of employees' photographs chosen in a similar contest. In other years, staff-taken pictures resulted in calendars of Aruba faces, animal life, scenery and refinery scenes. All of these topics, plus beach shots, sports, festivals, fishing, driftwood, sand, rocks, towns, streets, trees, flowers, and very nearly everything else, are fair game. The only stipulation is that the subject must be Aruba-connected in some way.

All pictures must be delivered to the Public Relations Department by the close of work, Monday, March 31. No extension of this deadline is possible.

Poco CYIs di Medical Department Declara No Eligible

Un area cual mas propiamente ta funcion di medicina profesional a worde declará no-creditable pa sugerencianan di Coin Your Idea door di Comité Ehecutivo.

Den un declaracion anunciá anteriormente e siman aki, tres sorto di sugerencianan den terreno medico lo worde sacá afor door di CYI Committee. Nan ta:

1) Sugerencianan perteneciendo na metodonan di tratamiento profesional involviendo tratamiento profesional di e maleza y enfermedadan di personalnan bao cuidado di Departamento Medico di Lago.

2) Sugerencianan cubriendo droganan noho, droganan di reemplazo y pretensionnan di superioridad di un droga ariba e otro.

3) Sugerencianan involviendo asuntunan puramente di organizacion di Departamento Medico of tratando cu variedad di specialista of servicionan profesional cu ta worde ofrecí door di Departamento Medico. Decisionnan ariba e asuntunan aki ta exclusivamente dentro di provincia di e Director Medico.

E motiho pa agrega e sorto di sugerencianan aki na e lista di asuntunan no-creditable ta cu den un terreno asina altamente specializá manera medicina moderno, e homber ordinario no ta capaz pa tene paso cu desaroyonan nobo. No ta probable cu un sugerencia door di plan di CYI por trece asuntunan den e terreno aki na atencion di Departamento Medico cu ya e Departamento no sabi di dje.

Segundo Biaha

Lago a Gana Prome Lugar Den Concurso di Safety Council

Pa di dos vez den cuatro anja, Lago Oil & Transport Co., Ltd. a sali na cabez di tur refinarianan di su tamanjo den seguridad, y a gana e concurso di seguridad di National Safety Council.

Noticia di e victoria a bini den un cable siman pasá for di NSC. Terminando tras di e frecuencia di 0.61 di Lago, di mehor den historia, un cable siman pasá for di NSC. tabata Standard Oil Company di Ohio den segunda lugar, y General Petroleum Corporation na di tres. Detayenan completo di actuacion di e dos companianan aki no ta disponible awor.

Pa 1956 Lago a caba na di dos lugar den e concurso, cu un frecuencia di 1.01 heridacion pa milion oranan trahá. E ganador e anja ey tabata Lion Oil Company, El Dorado, Arkansas, cu un frecuencia di 0.65.

Tres Evento

Ganando e concurso pa 1957 tabata e tercer evento memorable di seguridad na Lago durante anja. Tabata e anja den cual empleadonan a pone e frecuencia mas abao cu a yega di worde establecí aki, mehorando e cifra di 0.68 pa 1954. Y tambe tabata e anja den cual empleadonan a traha 6,520,829 ora consecutivo sin desgracia, tambe un record nobo. E periodo aki tabata extendende for di Dec. 8, 1956 pa Juni 5,

1957, 180 dia. E periodo anteriormente mas mehor tabata di 4,708,531 ora.

Esaki ta di segunda vez desde cu Lago a drenta e concurso como un unidad separá cu e esfuertonan di seguridad di e empleadonan a gana e premio principal. E otro anja tabata 1954, tempo e frecuencia tabata 0.68. E ranking mas abao di compania den anjanan reciente tabata tercer lugar, na 1951. E anja aki e frecuencia tabata 1.45.

Na 1952, e frecuencia di 1.20 a gana segunda lugar; na 1953, 1.01 tambe a gana segunda lugar. E siguiente anja Lago a gana promer lugar, y na 1955 y 1956 Lago tabata di dos atrobe, cu frecuecianan di 0.96 y 1.01 respectivamente.

Pa e periodo largo sin accidente anja pasá e compania a recibí un Premio di Honor di National Safety Council, di ocho cu e compania a gana.

NSC Says

Lago Is The Safest Oil Refinery In The World

A cable last week broke the news that Lago's safety efforts last year were good enough to win us first place in the National Safety Council annual contest.

This is good news, and gratifying to all employees whose thoughts and actions multiplied many thousands of times lay behind that figure of 0.61. No one person or department can take credit singly for 1957's achievement; every man who punched a time card, or operated a still or banged a typewriter shares in the pride that comes to us as a company for our efforts.

It was the best year Lago ever had. Employees and their families knew it and now, the entire industry knows: we are the safest refinery for our size in the world.

Thus it is that when congratulations are being passed around, they should go from top to bottom: Management, who supports the accident prevention program with money and prestige, deserves congratulations; the Safety Division, which implements the program, and works unceasingly with the men in the field; supervisors, who bring to their position a safe-thinking attitude; the employees themselves, who carry out their day-to-day work in a safe manner, and from whose experiences and opinions come a flood of new safety ideas. All of these people can congratulate themselves and each other on a superlative performance last year.

What enormous satisfactions there are in that terse statement. How many injuries that didn't occur does it imply? How much pain not caused? Earnings lost? How much pride in being simply "the best?"

Lago Ta e Refineria Di Mas Segura na Mundo

Un telegram siman pasá a habri e noticia cu e esfuerzonan di Lago ariba terreno di seguridad anja pasá tabata bastante bon pa gana promer lugar den e concurso anual di National Safety Council.

Esaki ta bon noticia, y di berdadero satisfaccion pa tur empleadonan kende nan idea y accionnan multiplicá varios miles di vez tabata tras di e cifra aki di 0.61. Ningun solo persona of departamentu por tuma credito pa e acoomplimento di 1957; cada homber cu a punch un timecard, of opera un still of bati un typewriter ta comparti den e orguyo cu ta bini na nos como un compania pa nos esfuerzonan.

Tabata e mehor anja cu Lago a yega di conoce. Empleadonan y nan familianan tabata sabi y awor, henter e industria sabi: nos ta e refineria mas salbo na mundo.

Y pesey ora pabien worde duná nan mester worde duná for di mas halto te mas chikito: directiva, cu ta apoya e prevencion di accidente cu placa y prestigio, ta merece pabien; Safety Division, cual ta implementa e programa, y ta traha incansablemente den e direccion aki; supervisornan kende ta crea un actitud di pensamentu cu seguridad; e empleadonan mes, kende ta haci nan trabao diario den un manera mas salbo, y for di kende su experiencia y opinionnan ta bini un flujo di idea nobo. Tur e hendenan aki por felicita nan mes y otro cu un actuacion superlativo anja pasá.

Ki un enorme satisfaccion tin den e declaracion cortico aki. Cuanto accidente cu no a socede e ta implica? Cuanto dolor cu no a worde causá? Ganamento perdi? Con hopi orguyo den ser "e mehor?"

SUCCESSFULLY COMPLETING a course in modern supervisory practices, Edward Pistek, left, Mechanical-Machinist, accepts the congratulations of General Manager W. A. Murray. An extensive MSP program for new supervisors is now drawing to a close.

COMPLETANDO CU éxito un curso den practiconan moderno supervisorio, Edward Pistek, robex, Mechanical Machinist, ta accepta felicitacion for di Gerente General W. A. Murray. Un programa extensivo di MSP pa supervisornan nobo awor ta yegando na su clausura.

Lago lo Cumpra Portretnan For di Empleadonan pa Calender di '59

Transparencianan di color di cualkier tamanjo, munstrando cualkier obheto Arubano, sacá door di empleadonan di Lago of anuitantenan, ta eligible pa premionan cash ofreci door di Lago pa medio di Public Relations Department. E portretnan cu worde selectá ta worde usá pa ilustra e calendario di 1959 di Lago.

Fls. 100 lo worde pagá pa cada retrato escogi door di personal di PR. E reglanan di e competicion ta facil:

1) Solamente transparencianan original den full color ta worde considera. No manda aden negatief di color, prints pintá cu man of cualkier retratonan geprint of publicá.

2) Transparencianan mandá aden mester ta di obhetonan di Aruba: hende, ensena, lugar of cos.

3) Solamente trabao mandá aden door di empleadonan of anuitantenan di berdad lo worde considerá.

4) Transparencianan cumprá door di e concurso ta bira propiedad di Lago Oil & Transport Co., Ltd. Mientras tur esfuerzo lo worde haci pa

debolbe na nan donjonan e transparencianan usá, esaki no por worde garantizá.

5) Retratonan usá den e calendar cual ta muntra personanan cu por worde reconocí mester ta acompaña pa declaracionnan firmá, bisando cu e persona of personanan no tin obheccion pa usa nan portret den e calendar.

6) Empleadonan di Public Relations Department no ta eligible pa dreña e competicion. E departamento, sinembargo, ta reserva e derecho pa usa retratonan sacá door di su personal den e calendar si no tin 12 entrada di caliber bastante halto cu a worde mandá aden.

Transparencianan mandá aden lo haya e mehor trato mientras nan ta worde examiná. Promer cu manda of entrega portretnan na Public Relations Department, fotografonan mester ta segur cu nan nomber y adres ta claramente indicá.

No Tin Limite

No tin limite na e cantidad cu un empleado individual por manda aden,

Employee Groups Complete Two Special Training Courses

Two groups of employees recently concluded intensive training in special courses made available by Lago. In one, six members of the Accounting Department graduated from a course in advanced accounting which had kept them busy since April, 1956, and in the other, 63 employees ended a two-week course in statistics.

The Accounting Department course was taught by Earl Cook and F. E. Stoltenberg, and consisted of training in cost accounting, auditing, internal auditing and accounting systems. Students attended class four hours a week since April, 1956, except when classes were temporarily suspended because of departmental workloads at year end. For each of the 276 classroom hours, students spent about two hours in home study.

Comptroller C. B. Garber, at graduation ceremonies last week, presented diplomas to R. V. Sadio, A. Tappin, A. Theysen, V. Tjin-Tham-Sjin, Z. Towon and K. Welch.

Led by Allen Crawford of Esso Research and Engineering, the statistics course covered such technical subjects as quality control, control charts, probability, variability and process control. Employees from four departments participated, spending three hours a day in class for the two weeks.

In April, Mr. Crawford, who has taught similar courses for affiliates of Standard Oil Co. (N.J.), will return for a second class, which will deal more with advanced refinery applications of statistics.

New Men Named To CYI Committee

Personnel of the Coin Your Ideas Committee has been changed with the naming of A. J. Casali, L. R. Monroe and S. L. DeWeese to membership. They replace H. V. Massey, J. F. Weaver and J. Johnson.

Composition of the group is changed periodically.

The 1958 group continues with M. E. Fisk as chairman and E. M. O'Brien as vice-chairman. Other members, in addition to the three new ones, are J. H. Beaujon, A. Medera, A. P. Post and G. L. Frank. Five alternate members are B. Viapree, C. K. Rodkey, H. H. Garig, M. Lacle, and R. Busacker.

Pierry Croes

Pierry Croes, who worked in Mechanical-Pipe as pipefitter helper, died Feb. 22. He was an Aruban and had 15 years of Lago service. He is survived by his wife and four children. He was 38 years of age.

Summer Training Offered Eligible College Students

For the fourth summer in a row Lago will operate a training program for college students. The program, offering on-the-job training in the student's particular field of study, will begin June 30.

To be eligible a student must fulfill three conditions: he must be a child of parents who are residents of Aruba; he must be currently enrolled in a college or university and have successfully completed at least one year of college education, and third, he must be able to pass a physical examination.

The program is designed to help students learn to work, obtain experience for future careers and orient themselves to the business world. A grant-in-aid of Fls. 175 will be given each student participating for each of the two four-week periods.

Parents of students may secure application blanks from the Training Division, Administration Building, for their children who wish to enter the program. The program begins June 30.

of, na e cantidad cu un hende sol por bende. Y mientras no tin restriccion tampoco ariba tamanjo, mester worde recordá cu mas grandi e transparencia ta, mehor e retrato cu ta worde trahá for di dje. Cualkier cos entre 35 mm te 8 x 10 inch ta aceptable. Retratonan lo worde huzgá ariba base di focus, color, composicion y obheto.

E calendar di 1955 di Lago tabata consisti di retratonan di empleadonan di Lago selectá den un concurso similar. Den otro anjanan, retratonan sacá door di e personal mes a resulta den calendarnan di caranan Arubano, bestia, vistanan y vistanan di refineria. Tur e topiconan aki, plus retratonan di beach, deporte, festival, piscamento, madera cu ta spulca canto di lamar, santo, piedra, ciudad, caya, mata, flor y cualkier otro cos ta aceptable. E unico stipulacion ta cu e obheto mester tin algo di haci cu trabao.

Tur retratonan mester worde entregá na Public Relations Department pa mas laat Dialuna atardi, Maart 31, na fin di trabao. No ta posible pa extende e fecha final aki.

US Training Ship Pays Call Here

The "State of Maine", U. S. training ship, paid its second call on Aruba, and the 250 cadets aboard landed right in the middle of Aruba carnival.

Watching the island-wide celebrations was a big part of the activities provided for the ship's company, but also included during the two-day visit were a conducted tour of the island, swimming and picnic at the Marines' house at Eagle Beach, and a reception at the home of the American Consul in Oranjestad.

Shortly after the ship docked a series of official calls was made between Captain George Roscoe, of the State of Maine, the American Consul, the Marine Commandant, and Dr. K. H. De Boer.

The ship was open to the public Sunday, February 16.

A number of island clubs extended their facilities to the young visitors.

The "State of Maine", a former hospital ship, belongs to the Maine Maritime Academy, and is used as a sort of floating classroom to give the cadets aboard full training in ship handling and organization.

Pierry Croes

Pierry Croes, kende a traha den Mechanical-Pipe como pipefitter helper, a muri Feb. 22. El tabata nativo di Aruba y tabatin 15 anja di servicio cu Lago. El ta laga atras su esposa y cuatro yiu. El tabatin 38 anja di edad.

FORMER MARINE Manager D. V. Newton spent one of his last days at Lago as "assistant" to William Beaty III, who ran the Marine Department during "Scouts Run Lago Day." Mr. Newton has now returned to Esso Shipping.

ANTERIOR MARINE Manager D. V. Newton a pasa un di su ultimo dianan na Lago como "assistant" di William Beaty III, kende a mancha Marine Department durante "e dia cu padvinderan ta mancha Lago." Sr. Newton awor a bolbe Esso Shipping.

Mission Reports Active Year

The work of the Norwegian Seamen's Mission in San Nicolas continued at an active pace last year, when over 6000 visitors from six different lands visited the mission quarters.

In a yearly report, A. M. Larssen, Norwegian consul in Aruba, and the man responsible for operating the mission, called attention to the fact that the Mission exists on donations. He expressed appreciation to Lago Oil & Transport Co., Ltd., the Lago Community Council, the Lago Community Church and the Woman's Club for help rendered during the past year. These organizations gave money, and several women of Seroe Colorado prepared baked goods at Christmas.

Last year, the Mission representatives paid calls on 646 Norwegian, Swedish, Danish, Finnish, Panamanian and Liberian ships entering the harbor. The Mission gave 252 parties, with entertainment and movies, and 6079 visitors used the reading and writing rooms.

Van Putten Nombra Den Gym Team

Roy van Putten, conocido atleta Arubano, y actualmente un estudiante na Springfield College, Massachusetts cu un beca di estudio di Aruba Sport Unie, a worde eligi como miembro di e equipo di exhibicion di gymnastiek di e colegio.

E equipo lo presenta 25 exhibicion door di henter e parti norte di Estados Unidos den lunanan venidero, y tambe lo parti den concurso cu otro colegionan.

Grupo di Empleado ta Completa Dos Curso Special

Dos grupo di empleado recientemente a completa entrenamiento intensivo den curso special poni disponible door di Lago. Den uno, seis miembro di Accounting Department a gradua pa un curso den accounting avanza, cu cual nan tabata ocupá desde April 1956 y den e otro, 63 empleado a caba un curso di dos siman di estadistica.

E curso di Accounting Department a worde duná door di Earl Cook y F. E. Stoltenberg, y tabata consisti di entrenamiento den cost accounting, auditing, auditing interno y sistemanan di accounting. Esso Research Develops New Pipeline Meter

Esso Research and Engineering Company has announced the completion of a successful, year-long test on the world's largest positive displacement pipe line meter.

Resembling a huge fire hydrant, the meter can click off 10,000 barrels of oil an hour (3 barrels a second) in measuring the quantity of crude piped into a refinery or loaded aboard a tanker. Until now, the largest meter of this kind has been able to handle only one-quarter of that capacity.

The meter will enable oilmen to bypass the need for tanks used to gauge oil pumped from producing fields to either refineries or tankers. This has long been a costly and time-consuming process.

The new meter is accurate to within one-tenth of one per cent, the requirement of meters used in transferring petroleum products.

During the year-long test, conducted in Louisiana by Interstate Oil Pipe Line Company, the meter had more than 60 million barrels of oil put through it.

The working part of the new meter is a rotary mechanism with metal vanes which divide the oil into components of prescribed volumes. Each revolution of the mechanism equals one barrel of oil.

Development of the unique device was carried out jointly by Esso Research and Interstate Oil Pipe Line.

Aruba Saludá Na Reunion YMCA

YMCA di Aruba, cualificá como esun di mas nobo di miembronan di YMCA, a worde saludá cu ovacion y aplauso durante un reunion nacional di Young Men's Christian Association na Cleveland recientemente.

E reunion a sirbi pa start un coleccion di fondo cual ta pa yuda YMCA den 33 pais pa traha edificio nobo of moderniza esnan existente. Ora e orador na e reunion a anuncia number di Aruba na e concurrencia, e bandera Holandes a worde cargá den coredor di e sala mientras 1200 hende tabata duna ovacion.

E accion ta contempla \$16 milion pa 116 edificio den henter mundo.

both affiliates of Standard Oil Company (New Jersey), and the A. O. Smith Corporation of Los Angeles. The meter's development is one phase of a research effort coordinated by Esso Research to improve the operation of 20,000 miles of pipe lines used by Jersey Standard interests.

Mision ta Reporta Anja Activo

E trabao di Norwegian Seamen's Mission na San Nicolas a continua activamente anja pasá, ora mas cu 6000 bishitante for di seis diferente pais a bishita e mision.

Den un informe anual, A. M. Larssen, consul Norwega na Aruba, y e homber responsable pa opera e mision, a yama atencion na e hecho cu e mision ta existi di donacion. El a expresa aprecio na Lago Oil & Transport Co., Ltd., Lago Community Council, Lago Community Church y Woman's Club pa yudanza duná durante e anja cu a pasa. E organizacionnan aki a duna placa, y varios damas di Seroe Colorado a traha holo pa Pascu.

Anja pasá, representantenan di e mision a haci bishita na 646 bapor Norwega, Sueco, Danes, Finlandes, Panameño y Liberiano cu a drenta haaf.

E mision a duna 252 partida, cu recreacion y pelicula, y 6079 bishitante a haci uso di e salanan di leza y di scirbi. Gerente di e mision a bishita 283 marineru den hospital, y tambe a percura pa post carta pa marineronan, pa weganan di futbol y pa paseonan.

"State Of Maine" Ta Bishita Aki

"State of Maine," barco Americano di entrenamento, a haci su segunda bishita na Aruba, y e 250 cadetnan abordo a cai net mei-mei di carnaval na Aruba.

Mirando e celebracionnan di henter e isla tabata un gran parti di e actividadnan pa tripulacion di e bapor, pero tambe inclui den e bishita di dos dia tabata un paseo over di e isla, landamento y picnic na e casita di mariniers na Eagle Beach, y un recepcion na cas di Consul Americano na Oranjestad.

Poco despues cu e bapor a hancra un serie di bishitantenan oficial a worde haci entre Captan George Roscoe, di State of Maine, Consul Americano, e comandante di Mariniers, y Dr. K. H. de Boer.

E bapor tabata accesible pa publico Diadomingo, Februari 16.

Algun club ariba e isla a extende nan facilidatnan na e bishitantenan. "State of Maine," un anterior bapor hospital, ta pertencee na Maine Maritime Academy, y ta worde usá como un sorto di klas flotante pa duna cadetnan abordo entrenamento completo den organizacion y trahamento cu bapor.

PORTRAITS IN OIL!

COLUMBUS MARION JOINER
HE FOUND THE FIELD THAT COULDN'T BE THERE!

IN 1929, AT THE AGE OF 67, C.M. "DAD" JOINER BEGAN TO DRILL FOR OIL IN EAST TEXAS - EVEN AFTER GEOLOGISTS HAD.....

.... WARNED REPEATEDLY THAT NO OIL WAS THERE.

JOINER'S ONLY EQUIPMENT WAS A WOODEN DERRICK, AN ANCIENT DRILL AND TWO BOILERS THAT DIDN'T MATCH. BUT HE HAD THE TWO QUALITIES HE NEEDED MOST - AN OILMAN'S FAITH AND COURAGE!

WHEN HIS FIRST TWO HOLES PROVED DRY, HE CHOPPED DOWN NEARBY TREES FOR BOILER FUEL. THEN ONE EVENING IN 1930, SURROUNDED BY FORLORN STOCKHOLDERS AND IRATE CREDITORS, HE STRUCK OIL! THE MIGHTY EAST TEXAS FIELD WAS BORN!

IN 22 YEARS, EAST TEXAS HAS PRODUCED NEARLY THREE BILLION BARRELS - ENOUGH TO FILL A TRAIN OF TANK CARS STRETCHING FOUR TIMES AROUND THE EQUATOR!
